PROFESSIONAL SUMMARY

I genuinely enjoy digging into data and figuring out what's actually going on beneath the surface. With hands-on experience in Python, SQL, and database management across real-world projects, I've learned to work with messy data and turn it into something meaningful. I bring strong analytical thinking and the ability to translate numbers into insights teams can act on — not just present.

TECHNICAL SKILLS

Languages	Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL (MySQL)
Visualization & BI	Business Intelligence (BI), Tableau, Microsoft Excel
Analytics	Statistical Analysis, Data Wrangling, A/B Testing, Data Modeling, Regression, Classification
Data Ops	ETL Pipelines, Data Cleaning, Data Validation, Data Quality, Data Governance, Data Documentation
Tools	Git, GitHub, Jupyter Notebook

INTERSHIP EXPERIENCE

Data Science Trainee Dec 2024 – Jun 2025
Besant Technologies — Rajajinagar, Bengaluru

- Wrote SQL queries to extract and analyze sales data from a MySQL database of 500,000+ records, identifying a 12% revenue dip in Q2 linked to regional distribution gaps.
- Built an interactive Tableau sales performance dashboard adopted by the marketing team, reducing weekly report preparation time by 8 hours.
- Performed data cleaning and EDA using Python (Pandas, Matplotlib) on customer survey datasets, delivering insights that improved NPS score tracking accuracy by 20%.

PROJECTS

Sales Performance Analytics Apr 2025 – May 2025
SQL · Python · MySQL

- Performed data cleaning, validation, exploratory data analysis (EDA) and sales analytics on retail transaction data using SQL, identified top 10 customers contributing 40% of revenue or any real number from the project to support business reporting.
- Enhanced advanced SQL queries utilizing CTEs, window functions, aggregations, KPI reporting, customer segmentation, and trend analysis to identify top customers, peak sales periods, and category-level business insights.

Bilingual Sign Language Interpreter — Master's Degree Project Dec 2023 – May 2024
Python · Flask · TensorFlow · OpenCV · MySQL

- Created an AI-powered Deaf Companion System leveraging Python, Flask, TensorFlow, OpenCV, and MySQL to facilitate real-time sign language recognition and speech-based communication.
- Designed backend functionality and database solutions for user management, data processing, and machine learning integration, achieving 83% gesture recognition accuracy.

Streaming Hub — Bachelor's Degree Project Dec 2021 – May 2022
ASP.NET · VB.NET · SQL Server

- Implemented a full-stack video streaming platform with user registration, authentication, group management, video upload/download, and streaming capabilities using ASP.NET and SQL Server.
- Designed role-based access and group-sharing features to enable secure content collaboration, efficient video discovery, and controlled knowledge sharing among users.

EDUCATION

Master of Computer Applications (MCA) Aug 2022 – May 2024
Vels University, Chennai CGPA: 7.25 / 10

Bachelor of Science in Computer Science Jul 2019 – May 2022
Kongu Arts and Science College, Erode CGPA: 6.80 / 10

CERTIFICATIONS

Data Science Certification — Besant Technologies, Bengaluru Dec 2024 – Jun 2025
[View Certificate](#)

SOFT SKILLS & LANGUAGES

Soft Skills: Stakeholder Management, Problem Solving, Communication Skills, Process Improvement, Attention to Detail
Languages: English (Professional Proficiency), Tamil (Native)
